1. The government of the United States is of a limited character, and it is confined to the exnation, and such as may be necessary and proper for carrying the grantel powers into full execu-tion; and that all powers not thus granted or

tion; and that all powers not thus grained or necessarily implied are expressly reserved to the States, respectively, and to the people. 2. The caste governments should be held se-cure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched

at, while struggling freedom everywhere he warmest sympathy of the Whig party, I adhere to the doctrines of the Father of orby, as announced in his Farewell Ad-or keeping ourselves free from all entan-Hinness with foreign countries, and of erate our opinions, or impose on other counto tellah by example, and show, by our sucmoderation, and justice, the blessings of government and the advantages of free in-

That where the people make and control the veryment, they should obey its constitution, vs. and recailes, as they would retain their self-spect and the respect which they claim and

onferes from foreign powers.

Government should be conducted upon princes of the strictest economy, and revenue sufof for the expenses thereof, in time of peace, at to be mainly derived from a duty on im-s, and not from direct taxes; and in levying uties, sound policy requires a just discrimin. and protection from fraud by specific duwasn practicable, whereby suitable encournent-may be assured to American industry,

R. The constitution vests in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenser such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every inance, national and general in their character.
7. The federal and State governments are parts

one system, alike necessary for the common sperity, peace, and security, and ought to be arded alike with a cordial, habitual, and immovable attachment. Respect for the author-ty of each, and acquiescence in the constitu-tional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

8. The series of acrs of the 31st Congress com-

monly known as the Compromise of Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, principle and substance, of the subjects to which they relate: and, so far as these acts are concerned, we will maintain them, and insist on their struct enforcement, until time and ex-perimose shall demonstrate the necessity of fur-ther legislation, to guard against the evasion of be laws on the one stand, and the abuse of their owers on the ether—not impairing their present finency to carry out the requirements of the constitution; and we deprecate all further agita-tion of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue of renew such agitation, whenever, wherever, or however made; and we will mainthin this settlement as essential to the nationality of the Whig party and the integrity of the Union.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANOSPHERICAL QUARTE CRUSHING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quarts. Iron Ore, Zine, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quarts or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being putverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australis.

These machines are from two to twelve feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

eter, each machine weighing from 250 pounds to 25 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse neward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or puterring, heretofore offered to the public.

These machines may be seen in operation at the foot of 80 th Bighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peck Silp Ferry, every day, from 7 to 0 a. m., and from 4 to 6 p. m. For further particulars, apply to

E. & J. BUSSING & CO., and 23-2w

Machanics. Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly bought forward and discussed in its columns, are Civil Engineering, Architecture, Rall-roads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Stam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 128 Fulton street, New York.

TERMS-ALWAYS IN ADVANCE.

KRAUSER'S PATENT CLOVER-SEED HAR-KRAUSEE'S PATENT CLOVER-SEED HAPVESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME
I TS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that cvery farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KETS, WASHINGTON TOWNSHIP, CAMDEN Co., N. J., ? Caoss Kers, Washington Township, Cambin Co., N. J., Soptember 4, 1851.

We, the undersigned, do certify that we have seen Mr.
Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

JAMES D. TIMERMAN, JOSEPH DEWALD, WH. C. NIGHISON, JOHN F. COCK, LAWES R. COOK.

WILLIAM P. GARWOOD, WM. C. NICHOLSON, JAMES COLLINS, JOHN F. COOK,
JAMES B. COOK,
JAMES BETSON,
PETER H. JONES. CHARLES LEWIS, THOMAS TUMBLESON,

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been postured two months with ten head of eattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON. The following points out the profitable nature of the

Cost of harvesting, &c., 1,000 acres..

have found them to agree unanimously with the allore calculation.

Perhaps no invention offers greater inducements for a
profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of
money could without doubt be realized from the sale of
rights in the different States of the Union not yet disposed
of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better
or more money-paying business.

Those who wish to see a model of this celebrated farming
implement, and the satisfactory manner in which it operates,
can do so by calling at

E. WHEELER'S,
Opposite Browns' Hotel.

N. B.—The subscriber has purchased the right for Montgomery county, Maryland.

Hampton's Vegetable Tincture! ORAL TESTIMONY.

ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known etitizens, and still we have a perfect syalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

this Tincture a trial:

Pour Royal, Va., July 27, 1852.

Mesers. Mertimer & Movebray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly, GRAY & PENDLETON.

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

and do likewise!!

Messrs. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November: I was taken with a very bud and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully,

N. B.—I can be seen at any time at the Mayor's office.

THE ALMOST MIRACULOUS CURES made by Hamp on's Vegetable Tincture on our most respectable citi-ens—men well known and tried—we challenge the world o show anything on record in medicine to equal it. Many andreds who have felt its healing powers bear the same testi-

N. B .- I can be seen at any time at the Mayor's offi

hundreds who have felt its healing powers bear the same testimony.

Baltinore, July 6, 1552.

Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with crysipelas, from which a dreadful ulcer formed on my rightleg. Getting better of this, last Novomber I took a deep cold, which led to what my physician toid me was billious pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my discusse, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved: and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine. Yours,

WESLEY ROCK,
Schroeder, near Saratoza street.

Truth stranger than Fiction !- None need despair !-

Truth stranger than Fiction!—None need despair!—
A Lady's Testimony after thirty-eight years
of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?
Northampton Co., April 13, 1852.
Messys. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helploss; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night: I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try IIAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

DEM MEDICAL SERVICE U.S. N.

REV. VERNON ESKRIDGE, U. S. N. Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild a than Ton's Vereinable Throtter, by its mid ac-tion on the Stomach, Liver, and the Kidneys, will cure bys-pepsia, Cough, Asthma, Bronchial and Lung Affections; Fains in the Back, Side, and Breast; Consumption, Scrofula, Rheumatism, Gout, Neuragia, Fistola, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine seer known. impure blood, and is the greatest Female Medi known.

RAY & PALLANTYNE having secured commodious of and convenient premises in Seventh street, two doors above Odd-Fellows' Hall, (opposite the old stand of A Gray,) offer a new and beautiful assortment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Robert Captac & Boothers, and of the Marinopar Book Concern, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Presbyterian Board, American Tract Society, American Sunday School Libraries, will be very extensive.

The Presbyterian Board, American Tract Society, American Sunday School Libraries, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Neat Bibles at 25 cents, and Testaments for 61/4 cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They carnessly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is deciding the country to such a fearful extent.

In addition te their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Juvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every warlety of valuable Historical, Miscellaneous, and beautiful Gift Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

A. GREEN, sep 3—

THOS.A. SCOTT.

Protection from Lightning.

The undersigned, being the duly appointed Agent of Spratt's Electrician and Electro-Delta Lightning.

The undersigned, being the duly appointed Agent of Spratt's Electro-Light Lightning.

Spratt's Electrory. Covington, Kentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented), forming a lock; the whole mounted with a solid platinum silver point, (patented) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON.

Washington City Protection from Lightning.

are well calculated to perform the onice for which they are intended. Yours, truly,

Chicago, September 3, 1850.

Chicago, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientists principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Augusta, (GA) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrod them.

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm. Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mochanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,
Prof. of Chem. in the University of Louisville.

Louisville, January 27, 1851.
